

Press Release
March 2, 2023

The Buffalo Center Clinic Search Committee has been actively pursuing potential providers to staff the clinic in Buffalo Center after MercyOne's departure at the end of March.

The committee is holding discussions with two interested organizations to determine furniture and equipment needs in the Buffalo Center location. In addition, funding sources are being investigated to potentially assist with start up costs.

Committee members include: Rick Hofbauer, Tanner Weaver (City Council), Jim Engle, Rod Hansen, Jeff Ostermann (Buffalo Center Development Corporation/Bison Limited which owns the building), Lorie Bierle and Gayle Hansen (community members with healthcare experience). Mayor John Davids is an advisor to the committee.

The committee is committed to keeping the community updated through regular newspaper articles and information posted on the City of Buffalo Center Facebook page and website. Please feel free to contact any committee member with questions and ideas.

Thank you for your ongoing support during this process.
