

Press Release

February 18, 2023

The Buffalo Center Clinic Search Committee has been actively pursuing potential providers to staff the clinic in Buffalo Center after MercyOne's departure at the end of March. The building will be available for occupancy by a new provider May 1, 2023.

Contacts with multiple providers have been made over the past week and meetings were held with two providers interested in learning more about the opportunity. Discussions will continue over the next several weeks. It is important to maintain confidentiality during these discussions and specific information will be shared with the community as soon as possible.

Committee members include: Rick Hofbauer, Tanner Weaver (City Council), Jim Engle, Rod Hansen, Jeff Ostermann (Buffalo Center Development Corporation/Bison Limited which owns the building), Lorie Bierle and Gayle Hansen (community members with healthcare experience). Mayor John Davids is an advisor to the committee.

The committee is committed to keeping the community updated through regular newspaper articles and information posted on the City of Buffalo Center Facebook page and website. Please feel free to contact any committee member with questions and idea.

Thank you for your ongoing support during this process.
